Mailbox Guard - Profitable, Premium, Privacy-First Email.

Many resellers deal with complex portals, tight margins, and endless support tickets that eat into profits and pull focus away from growth.

Driven on a quest to create a sovereign email platform that not only functions flawlessly but, more importantly, respects user privacy, we built Soverin with partners like you at the center of our design. While other vendors treat resellers as secondary customers, our mission was clear: to offer a privacy-first email solution that's effortless to set up, low-maintenance to run, and designed to scale without the operational headaches. That's why Mailbox Guard is perfect for you: functional, scalable, simple, and built so you can focus on customers and growth instead of infrastructure complexity.

Why this alliance works

Because every hero needs a loyal sidekick, we can be yours. You focus on what you do best: building customer relationships and growing your business. We focus on what we do best: email that just works. Unlike most providers who leave you to handle everything yourself, we really have your back when complex issues arise. A strategic partnership built to boost profits and simplify operations, it delivers:

Effortless setup and management:
Out-of-the-box bundles you can activate instantly, no lengthy onboarding or hidden hurdles

Healthy profit margins:
Turn email from operational cost into a revenue driver with margins that scale

Premium service without complexity:
Deliver advanced features and European sovereignty without the technical headaches

Expert back-up when you need it:
Our email wizards provide second-line support, stepping in for technical troubleshooting when your teams need it.

The path to effortless profitability

Our pricing model is designed for reseller success. You own the customer relationship and handle first-line support, while we handle infrastructure and technical complexity. Together, we deliver a premium service that gives your clients a trusted European alternative:

Fair and transparent pricing: Monthly storage based on actual usage, no hidden costs or vendor lock-in

Prepaid bundle: starting at 25 mailboxes (from €200 excl. VAT per year)

Additional revenue streams: Optional domain registration via Soverin for complete one-stop shopping

Healthy tiered margins as you scale: Profitability that increases as you grow

Built like a digital fortress

Every aspect of our turnkey infrastructure is designed to work seamlessly while you focus on growth:

ISO 27001, 9001, and 14001 certified: Enterprise-grade security your customers expect

Hosted on our own servers in the Netherlands: Complete data sovereignty under EU law

All protocols handled seamlessly: Built-in GDPR, DMARC, DKIM, SPF compliance

No third-party dependencies: Complete control without external risks

The movement toward digital freedom is spreading

Customers are becoming increasingly aware of where their data lives and who profits from it. That is why digital sovereignty isn't a nice-to-have. It's quickly becoming the standard. Whether it's NIS2, GDPR, or growing privacy concerns, your customers want alternatives to Big Tech platforms. Smart resellers are positioning themselves to meet this demand with trusted European solutions that put people first. With Soverin, you're not reselling someone else's platform. You're growing your own. This isn't just email hosting, it's email sovereignty as a service that complements global providers.

Our credentials speak volumes:

| tayllorcox ISO 14001: 2015 | tayllorcox ISO 9001: 2015 | tayllorcox ISO/IEC 27001: 2022 | NIS 2 | Internet.nl compliant hoster ✓ 100% | DNS | 100% Email test Internet.nl ✓ |

Create your own email empire through a secure white-label

As your business grows, so do your branding opportunities. For larger partners (10,000+ mailboxes), run the service entirely under your own name with advanced enterprise capabilities that aren't available in our standard reseller packages. Here's what that entails:

- **Fully branded portal and interface** in your look & feel
- **Your own MX records & certificates** for technical independence
- **End-to-end customer experience** in your brand with Soverin as an invisible backbone
- **Insights into the full mail flow** reducing the time to resolution significantly
- **API for provisioning and control panel integration** for smooth integration

About Soverin

Email experts, fanatics of privacy. For a decade, our mission has been to revolutionize secure email by giving users control over their privacy. Run by email wizards: tech gurus, network pros, protocol specialists, and internet pioneers, we've created a platform that's secure, scalable, and steady. We're your trusted ally in the background, keeping email flowing, support tickets minimal, and customers happy.
